Why should I take Asbestos Awareness Training?

Asbestos Awareness Training is required for all employees whose work activities may contact asbestos containing material (ACM) or presumed asbestos containing material (PACM) but do not disturb the ACM or PACM during their work activities.

This training includes information concerning the locations of thermal systems insulation, surfacing ACM/PACM, asbestos containing flooring material, flooring material where the absence of asbestos has not yet been certified and instruction in the recognition of damage, deterioration and de-lamination of ACM.

Training is valid for one year from the completion date. Annual Asbestos Refresher Awareness Training is required by OSHA/ MIOSHA.

What will you learn in this training?

- Basic Asbestos Information
- Identifying Asbestos Containing Materials (ACM)
- Operations that Could Result in Exposure to Asbestos
- Protective Controls to Minimize Asbestos Exposure
- Emergency Response Procedures
- Health Effects Associated with Asbestos Exposure
- Respiratory Protection
- Asbestos Removal
- Asbestos Management Methods
