Why should I take Fall Protection Authorized User training?

This course is designed for individuals working at height and offers an awareness of the issues involved with fall protection. This course focuses on the theory of fall protection and the need to protect workers at height.

Participants are introduced to the legislation governing fall protection as well as the components of a fall protection system including holding devices, anchorages, connectors and rescue.

Upon successful completion of this course, the student will receive a certificate acknowledging they have met or exceeded OSHA, ANSI and CSA requirements as an Authorized Person.

What will you learn in this training?

- Fall Protection Recognition
- Fall Hazard Surveys and Procedures
- Applicable Fall Protection Regulations
- Responsibilities of Designated Persons under this Standard
- How to use Written Fall Protection Procedures
- Inspection of Equipment Components and Systems
- Fall protection Rescue Procedures

This class awards .4 CEU credit hours.

Students should bring their own harness to class, if they have one.
