

COMPETENT USER SCAFFOLD TRAINING

What is a Competent Person?

A Competent Person means one who is capable of identifying existing and predictable hazards in the surroundings or working conditions which are unsanitary, hazardous, or dangerous to employees, and who has authorization to take prompt corrective measures to eliminate them.

What will you learn in this training?

- The major elements of the OSHA General Requirements for scaffolds
- How to calculate how much material is needed to build a certain type of scaffold
- How to determine the steps and rules associated with the erection of frame, tube and clamp and system scaffolds
- Overview of 29 CFR 1926 Subpart L
- Hands-on building of scaffold
- Hands-on inspection of scaffold

This class awards 1.2 CEU credit hours.
